

andis®

**PROFESSIONAL
ANIMAL GROOMING
SOLUTIONS**

JANUARY 2020

Your grooming needs require the right motor.

Andis® products are among the best cutting, smoothest running and most durable found anywhere in the world. Each utilizes expertly developed motor technology designed to complement the application, ensuring maximum performance. So which type of motor should you choose? Whether magnetic, pivot or rotary motor, your Andis selection will deliver the high-quality results you've come to expect when you pair the correct motor with the right application.

MAGNETIC MOTORS

Reliable Power & High Blade Speed for light body grooming

Magnetic motors run at high speed resulting in smooth cuts. Light textures of hair will feed and cut well with magnetic motor clippers. Less moving parts make these simple, reliable and the longest lasting of all the motors.

PIVOT MOTORS

High Power & Lower Blade Speed for complete body grooming

Pivot motors have a lower blade speed than magnetic motors but are twice as powerful. Higher cutting power makes them ideal for cutting thick or heavy hair. They are whisper quiet, cool running and long lasting.

ROTARY MOTORS

High Power & High Blade Speed for a wide range of grooming

Rotary motors have an equal amount of power and blade speed. They are also the only motor available with multiple speeds. Their balance between power, speed, size and weight makes them extremely versatile and perfect for heavy-duty cutting.

BRUSHLESS ROTARY

Brushless motors deliver more power and torque than standard designs. They also last longer and weigh less.

Our most powerful cordless detachable blade clipper features a removable battery pack. The powerful lithium-ion battery can be removed from the unit and charged separately. Improved battery gives longer run time (up to 3 hours) with a 2-hour charge time. Five speeds: Adjustable from 2,500 to 4,500 strokes per minute. Detachable blade design provides greater versatility with multiple blade options.

All of the power and versatility of the Pulse ZR® II, and features a close-cutting CeramicEdge® Size 40SS blade for veterinary and surgical work.

High-endurance brushless motor delivers more power; lasts longer than standard clippers—10,000+ hours! 2-Speed design with higher top speed for a smoother coat finish. Perfect for all coats and breeds. Detachable blade design for greater versatility and easy cleaning. Includes exclusive 17' tangle-free swivel cord that enables movement around animals.

The AG® 2-Speed+ features a steady 2-speed rotary motor which runs at 3,400 SPM on the high setting and 2,700 SPM on the low setting. Cool-running, smart design eliminates fans and vents that can become clogged with hair. Clipper features detachable blades for easy cleaning and ultimate choice for cut length. Full 14' heavy-duty cord.

BRUSHLESS MOTORS

Our brushless motor clippers make easy work of even the toughest clipping jobs! With more power and torque than standard rotary motors, our brushless design features advanced circuitry that prevents dragging or stalling. Andis engineers also designed the Endurance® clippers to last longer than any previous animal clipper we've made—10,000+ hours!

When beginning any groom, remember to consider the pet's anatomy and determine the finished cut length of hair; you can always take more hair off, but you can't put hair back on. Begin clipping in a slow but steady movement, move along the back in the direction of the hair growth of the coat. On most pet coats, it will go from back of the head, down the tail, and down each leg. The hair typically grows backwards on the chest and backs of each leg.

The Pro-Animal EBC (Easy Blade Change) is perfect for at-home grooming on medium-coated and wire hair breeds. Features a heavy-duty single-speed rotary motor clipper for more cutting power. Detachable blades for ease of changing and cleaning. Break-resistant housing and an 8' heavy-duty power cord.

Powerful rotary motor clipper kit for grooming dogs with heavy coats. Detachable blades for ease of changing and cleaning. Break-resistant housing and 12' heavy-duty cord. Built to withstand years of use.

The Cordless Easy Clip® Li clipper features a lithium-ion battery mated with a powerful rotary motor to cut through single-coated breeds. With an adjustable blade from sizes 30-9 and included attachment combs, at-home cutting has never been more versatile. Delivers over 2 hours of run time and charges in 90 minutes, and includes a cord/cordless feature for uninterrupted grooming.

Your all-in-one solution for grooming medium to smaller breeds. This powerful rotary motor clipper has easy-to-use interchangeable blades and a quiet operation for ultimate pet comfort, and features an 8' cord for ease of grooming.

For dogs with thin to medium coat types, this kit is a great option. Designed for light body grooming, the compact rotary motor clipper has an ergonomic design for increased comfort. The adjustable precision blade adjusts from sizes 30-10 for more clipping options. Features a 6' cord for easy at-home grooming.

A lightweight yet powerful clipper for quick detailing and styling. Designed for light body grooming, the blade adjusts from sizes 30-10. Featuring a pivot motor, this clipper has an extremely quiet operation which is more soothing and comfortable for pets, leading to more relaxed grooming sessions.

Ideal for touch-ups, this adjustable blade clipper is designed for light body grooming. The magnetic motor is whisper quiet and smooth running. Blade adjusts from sizes 30-10.

The lithium-ion-powered Precise Trim® offers 2 hours of non-stop trimming. This quiet, cordless trimmer is ideal for touch-ups around the face, ears and tail and features a contoured housing for comfort and sure handling. With cord/cordless technology, you can use the clipper cordless for ultimate convenience and then plug it in and continue clipping when your battery runs low for complete flexibility.

The Easy Clip® Mini II is a powerful all-in-one clipper/trimmer. Perfect for trimming around ears, face and paws. Quiet running—ideal for sensitive pets. 20% lighter than comparable products. Snap-off precision blade for easy cleaning.

65760
80565 - COMPACT

Reduces shedding up to 90% while maintaining a damage-free topcoat.

Flea Comb

66060

Ideal for removing fleas, tangles, loose hair and dirt from long coats.

Dematting Tool

66055

Heavy-duty, stainless-steel blades remove mats, tangles and knots for healthier skin and coat.

Dematting Rake

66050

Specially designed serrated blades tackle stubborn mats and tangles.

Flexible Rake Comb

65735

Removes dead hair and eliminates tangles. Teeth rotate 360° to reduce pulling hair while combing.

REPLACEMENT CLIPPER PARTS

AG/MBG Hinge Assembly

28193

Replacement hinge for all AG and MBG models.

AGC Hinge Assembly

563897

Replacement hinge for all AGC, AGR, BDC, DBLC and SMC models.

Quad Force Replacement Blade Drive

20658

Replacement blade drive for clippers in these series: AG, BDC, BG, DBLC, MBG and SMC.

MAINTENANCE PRODUCTS

Cool Care Plus®

12750 US 12263 CAN

Spray can, 15.5 oz - 12 to a case
Cool Care Plus® is a 5-in-one coolant, lubricant, cleaner, rust preventative and disinfectant (virucide, fungicide, bactericide and tuberculocide) with a country-fresh scent. Do all of this in one step without removing the blade from the clipper. High-pressure comfort tip nozzle quickly sprays hair out of blade teeth.

Andis® Clipper Oil

12501

4 oz bottles - case of 48
Use Andis® clipper oil to lubricate and clean blades. Brush hair from the blades, add 5 drops and wipe away excess oil with clean cloth. Hang or store your Andis® clipper with the blades down to prevent excess oil from entering the clipper body.

Blade Care Plus®

12570 (Jar) & 12590 (Spray Bottle)

Dip jar, 16.5 oz - 12 to a case
Spray bottle, 16 oz - 12 to a case
In just 10 seconds, Blade Care Plus® leaves blades clean, lubricated and cool for optimal performance. Formulated for use by hair stylists, barbers, animal groomers and veterinarians, this 7-in-one, Vitamin E enriched formula cools, deodorizes, lubricates, cleans, prevents rust and decontaminates. Dip any detachable blade in the jar or conveniently spray blades to rinse away hair, buildup and preservatives.

Blade Brush

12415

The blade brush is a convenient, safe way to keep clipper and trimmer blades clean in between grooming. The broad bristle design ensures a clean blade in just a few strokes.

CLIPPER CARE

After clipping, it is important to clean your clipper and blade thoroughly to maintain your tool's performance:

- 1 Remove large hair fragments from the blade with a blade brush.
- 2 Clean and disinfect blades by using Cool Care Plus®.
- 3 Use the 5-point oiling system to lubricate your clipper: with the blade teeth pointing down, apply 3 drops across the teeth of the blade and 1 drop on each back rail.
- 4 If you notice a decrease in performance after cleaning and oiling your blade, replace the blade to maintain peak cutting performance.
